

Building AnIML

Instrument manufacturers, data system & LIMS developers, software developers, end-users, consensus standards organizations, regulatory agencies, & other interested parties are invited to participate in this effort.

Where are we?

- Requirements document completed
- Core Schema completed
- Technique Schema completed
- Naming and Design Rules for Core and Technique Schemas completed
- Technique Definition for UV/Vis nearly completed
- Technique Definitions for Chromatography, IR, and MS in progress

What do we need?

- Domain experts for all techniques to review and critique the Technique Definitions
- Domain experts for NMR and MS to assist in creating these Technique Definitions
